Target Markets	3
Identified Pain Points	3
Proposed Solution	3

Target Markets

Focusing on high-volume real estate portals: Zonaprop (AR), Mercado Libre (UY), and Zillow/Realtor.com (USA).

Identified Pain Points

1. Data Fragmentation: Leads scattered across multiple platforms. 2. Response Latency: Slow follow-up on initial inquiries. 3. Lead Qualification: High volume of unqualified inquiries wasting agent time.

Proposed Solution

Automated scraping and unified data pipeline to centralize listings and provide instant lead qualification.
